

Farm Science Review

Herrick Archives Building S 93/98

This report supplements three earlier reports (S 21/25, S 69/75, and S 85/90). It reports changes in permanent buildings for the 1978 Farm Science Review. These buildings are permanent only in the sense that they are left in place from year to year. They are, however, subject to removal or relocation.

References are made in this report to lot numbers. These can be located on the map included in Report S 85/90.

See Addendum No. 3

New buildings in 1978 include:

S 93-Lot 28 - Erected and owned by Cuckler Building Systems. Replaced another Cuckler building (S 69) on the same site. See Photograph X 22957.

S 94-Lot 25 - Erected and owned by Wick Agri-Buildings. See Photograph X 22958.

S 95-Lot 54 - Erected and owned by Wickes Buildings to replace Building S 71 previously erected by Wickes on the same site. See Photograph X 22956.

See Addenda No. 2.

S 96-Lot 60 - Erected and owned by Stormor, Inc. See Photograph X 22955.

See Addenda Nos. 3 & 4.

S 97-Lot B - Silo erected by Chromalloy Farm Systems Division. Photograph X 22959. The two silo bases at the right are on Lot C and belong to the same exhibitor.

S 98 - Grain storage bin (circular) at southeast corner of Building 991. Photograph X 22953. For location, see report on Building 991.

November 19, 1980

ADDENDUM NO. 3

The first sentence should list four earlier reports: S 21/25, S 38, S 69/75 & S 85/90.

Immediately after the 1981 Farm Science Review, Buildings S 93 (Cuckler), S 94 (Wick), and S 96 (Stor-Mor) were removed, because they were in the clearzone required to be kept free of buildings for the safety of aircraft using Don Scott Field.

September 29, 1981

ADDENDUM NO. 4

The owner of S 97 was Peerless International, not Chromalloy. This silo was moved in 1980 or 1981 to a site adjacent to the north boundary of the Case Rd. right-of-way, and south of the Unbaugh building (S 104).

A photograph of this building in the new location, with S 104 in the background, is in Photo Archives under the number X 30149.

It is expected that S 97 will be removed by May 1985.
